

Safe and Secure Election = NO Voting Machines

If Voting Machines are to be Used, then a Full Certification Process that is According to Federal and State Law MUST be in Place

ONLY LAWFULLY CERTIFIED MACHINES CAN BE USED FOR ELECTIONS

Labs NOT Accredited

In order to ensure safety and security

ONLY fully vetted entities can touch or sign off on the machines - and this is according to strict processes. The process is dictated through HAVA, the EAC and Arizona State law as well as the Elections Procedures Manual (EPM)

SIMPLE CONTRACT LAW

So, called accredited' labs
(SLI and Pro V&V)

were NOT in COMPLIANCE with HAVA or in legal contract to do any machine certifications.

This put Arizona at RISK for foreign influence, since those labs did not enter into legal contract

NO CONTRACT TO DO BUSINESS

Voting Machine Certifications INVALID

All 3 Federal machine certifications in Arizona are FAKE and so no machines are legal to be used.
